

Bentley Developer Network

Unlock a world of opportunities. Join Bentley's ecosystem!

INTRODUCTION

The Bentley Development Network empowers third-party developers to create their own solutions for the marketplace. It provides access to extensive programming technologies, enabling you to confidently support and address end-user requirements, from enhancing a company's design workflow to meeting industry-wide needs.

The BDN program offers essential resources for commercial developers to successfully develop and test applications that complement Bentley's engineering and geospatial solutions technologies. It also empowers project delivery teams to share deliverables effectively.

Members of the BDN program receive numerous benefits that increase efficiency and reduce the cost of developing software customizations. You can quickly create world-class solutions that seamlessly integrate with and extend Bentley's product capabilities while advancing infrastructure.

BENEFITS

- ◆ Software development kits (SDKs)
- ◆ Application programming interfaces (APIs) for a range of Bentley products
- ◆ Bentley product licenses to support development efforts
- ◆ Developer technical support
- ◆ Enhanced documentation
- ◆ Self-paced learning paths specific to developers
- ◆ Dedicated BDN community

OPPORTUNITY

- ◆ The BDN program empowers members by providing access to cutting-edge capabilities and resources, fostering innovation and business development.
- ◆ BDN seeks to create a collaborative community where developers can connect, share knowledge, and grow professionally.
- ◆ Members gain exclusive access to technical resources, documentation, and support, enhancing their ability to create high-quality applications and promote them to Bentley's ecosystem.
- ◆ The program is designed as a journey to accompany your organization as its business scales.

ABOUT BENTLEY SYSTEMS

Bentley Systems (Nasdaq: BSY) is the *infrastructure engineering software* company. We provide innovative software to advance the world's infrastructure – sustaining both the global economy and environment. Our industry-leading software solutions are used by professionals, and organizations of every size, for the design, construction, and operations of roads and bridges, rail and transit, water and wastewater, public works and utilities, buildings and campuses, mining, and industrial facilities. Our offerings, powered by the *iTwin*[®] Platform for infrastructure digital twins, include *MicroStation*[®] and *Bentley Open*[™] applications for modeling and simulation, *Seequent's* software for geoprofessionals, and *Bentley Infrastructure Cloud*[™] encompassing *ProjectWise*[®] for project delivery, *SYNCHRO*[™] for construction management, and *AssetWise*[®] for asset operations. Bentley Systems' 5,200 colleagues generate annual revenues of more than \$1 billion in 194 countries.
