

HOW WELL DO YOU KNOW #SYNCHRO?

10 THINGS YOU DIDN'T KNOW ABOUT SYNCHRO™

Simplify your everyday digital construction management challenges with SYNCHRO.

WITH SYNCHRO, YOUR TEAM CAN:

WIN MORE PROJECTS

Drive winning projects with a complete heavy civil construction management solution that is “powered by iTwin®.”

TAKE ADVANTAGE OF CPM SCHEDULING

Leverage the powerful critical path method (CPM) scheduling engine, equipped with Gantt views and bidirectional connections with P6, Microsoft Project, and other scheduling applications.

CREATE CONSTRUCTIBLE COMPONENTS

Slice and dice models into constructible components for **quantity take-offs and scheduling**.

MANAGE TASKS AND DATA

Manage your tasks and data in **real-time with 2D, 3D, and 4D context**, using web browsers and mobile applications.

ENHANCE PROJECT PERFORMANCE

Expedite operations in the field, including inspections, time tracking, and resource optimization.

ACCESS UPDATED INFORMATION IN THE FIELD

Access all 3D and 4D models, PDFs, documents, and heavy civil project tools **directly in the field** on mobile devices.

OVERSEE PROJECT COSTS

Manage all project costs, including contracts, change orders, and payment applications.

INDEX YOUR MEDIA

Exploit the power of artificial intelligence (AI) to search and find photos, videos, and other content in seconds.

INTEGRATE YOUR BENTLEY PRODUCTS

Integrate directly with ProjectWise® Design Integration to **extend design content** into construction delivery.

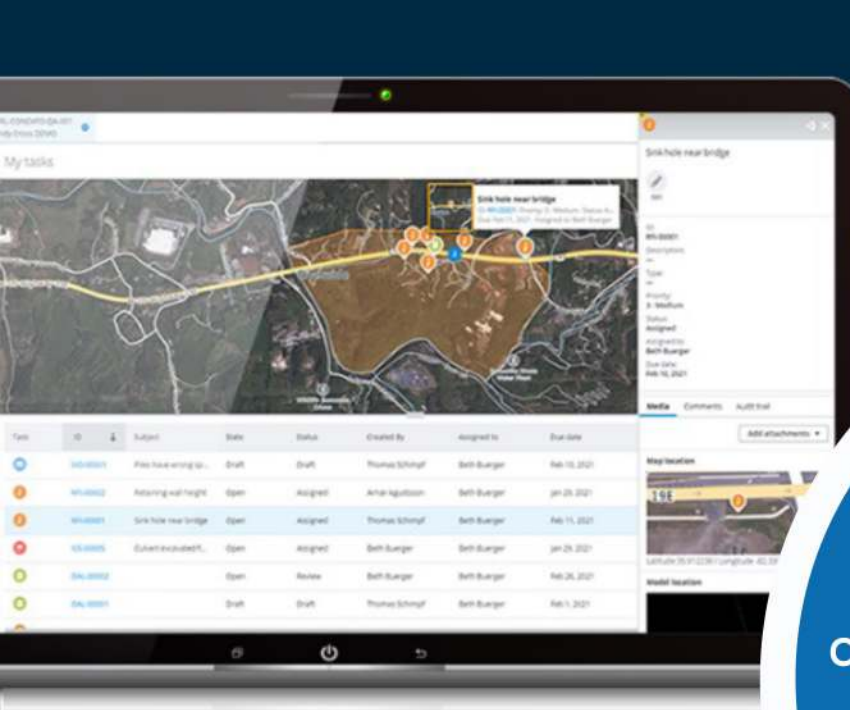

GEOLOCATE EVERYTHING

Geolocate everything, including PDFs, issues, inspections, photos, weather, and workflows.

“With every project completed more digitally than the last, we gain financial benefits and valuable experience that makes our company more competitive and stronger in the market.”

– **Mikhail Mushurov**

BIM/VDC Coordinator
Renaissance Heavy Industries
